

## Joint Research Projects, 2020

	Principal Investigator	Research Theme	CADIC Counterpart
1	Tatsuhiko GOTO, Research Center for Global Agromedicine, Obihiro University of Agriculture and Veterinary Medicine	Studies on frequency of resistant allele in avian leucosis viruses(ALV) receptor genes using Japanese indigenous chickens.	Satoshi SEKIGUCHI
2	Ayaka OKADA, Faculty of Applied Biological Sciences, Gifu University	Detection of <i>Campylobacter</i> spp. from broiler carcasses using digital PCR	Takako TANIGUCHI
3	Masaki TAKASU, Faculty of Applied Biological Sciences, Gifu University	Study on conservation genetics of feral Misaki horses	Ikuo KOBAYASHI
4	Tatsunori MASATANI, Joint Faculty of Veterinary Medicine, Kagoshima University	Surveillance and phylogenetic analyses of tick-borne haemoparasites of wildlife animals in Kyusyu, Japan	Ayako YOSHIDA
5	Shingo ISHIKAWA, Joint Faculty of Veterinary Medicine, Kagoshima University	Analysis of effects of nasal mucosal vaccine TSV®-3 on respiratory mucosal immunity in cattle	Ryoko UEMURA
6	Satoshi Inoue, National Institute of Infectious Diseases	Development of government-academia collaborative MOS(Monitoring and Surveillance) System for rabies and canine/feline derived parasitic zoonoses in human and livestock-With cooperation among Miyazaki prefecture, Miyazaki city and University of Miyazaki-	Chiho KANEKO

## Joint Research Projects in Miyazaki Prefecture, 2020

	Principal Investigator	Research Theme	CADIC Counterpart
1	Seiya MURANO, Livestock Department, JA Miyazaki Economic Federation	Evaluation of pig flow on commercial swine farms	Yosuke SASAKI
2	Yuichi USHITANI, Dairy feed department, JA Miyazaki Economic Federation	Estimation of latent period for bovine leukemia virus infection	Satoshi SEKIGUCHI
3	Takanori KAWANO, Koyu Livestock Clinic, Koyu Center, Miyazaki Agricultural Mutual Aid Association	Intrauterine Administration of Autologous Plate-Rich Plasma as a Novel Treatment for Repeat Breeders in Dairy Cows	Takeshi Osawa
4	Atsuhiko SAKAMOTO, Miyazaki Animal Welfare Center	Development of PCR diagnosis for cat-intractable viral diseases	Tamaki OKABAYASHI
5	Takafumi MAEDA, Miyakonojo Central Livestock Clinic, Miyazaki Agricultural Mutual Aid Association	Prevention of dystocia by blood analyses and ultrasound examination in pregnant beef cattle	Go KITAHARA
6	Naoyuki FUKE, Tsuno Meat Inspection Center	Pathological analysis of superficial pectoral myopathy in broiler chickens	Ryoji YAMAGUCHI
