

# WEBINAR OCEANFARM #5

Shaping the Future of Aquaculture  
with Molecular Science

## SPEAKERS

**Prof. Tamaki Okabayashi**  
UNIVERSITY OF MIYAZAKI

The Research on Disease Control  
Measurement in Indonesian Fish Farm  
Using New Diagnostic Methods and  
by Application of Mobile PCR Systems

**Prof. Ketut Sugama**  
RESEARCH CENTER FOR MARINE AQUACULTURE  
BRIN

A new Species of Shrimp, *Penaeus* Sp.  
Revealed by Molecular DNA Analyses,  
As Candidate Species for Aquaculture &  
Genetic Improvement of Marine Fishes  
in Indonesia

**Puji Lestari, S.P., M.Si., Ph.D**  
Head of the Research Organisation for Agriculture  
and Food - BRIN

**Supono, M.App.Sc., Ph.D**  
Head of the Research Center for Marine Aquaculture  
- BRIN

## REMARKS

**WEDNESDAY, MARCH 11, 2026**

Start At 10.00 AM (Jakarta Time)  
zoom: <https://s.id/Gzakk>

## HOST

**Reagan Septory, S.Pi., M.Sc**  
RESEARCH CENTER FOR MARINE  
AQUACULTURE-BRIN

## MODERATOR

**Ir. Jhon Harianto Hutapea, M.Sc.**  
RESEARCH CENTER FOR MARINE  
AQUACULTURE-BRIN
